Magazines - Print & On-Line

Fishing and Travel There have been several attempts to create a UK magazine solely focusing on overseas fishing all unfortunately without success; the latest of which was **Adventure Fishing**. That failed after just four editions in 2010/11.

But on a European front there are several magazines published in Germany, Italy and France all with seemingly healthy readerships. And finally, recently, one **Voyage de Peche** has 'dipped their toe in the water' and produced an English language version of their magazine.

Marlin Magazine It's a long-standing US-produced digital and print magazine that covers big game fishing - not just focussing on Marlin - throughout the world with reviews on often rather expensive game-boats. I guess we can but dream!

Like many though it still hasn't attempted to differentiate in cost terms between the two versions; for pricing - digital and print - they're 'bundled' together. So you get seven - yes, oddly seven - editions per year for some 55\$US.

Their site itself though is well worth examining. It contains a reasonable selection of videos and write-ups on techniques. And they also have a **YouTube channel** that includes some great action videos.
